We are now taking applications for September 2017 and would love for your child/children to join us on our exciting journey.

Built for the Gascoigne Estate, focusing on bringing together the diverse cultures of this wonderful community. Our aim is to encourage and develop all of our students whatever their background.

We are proud to serve this vibrant and diverse community. As parents we understand that you want the very best future for your children and our mission at Greatfields is to ensure that we give our students the best education possible, both inside and outside of the classroom, in order to enable them to follow their dreams, whatever they may be.

I look forward to meeting you.

Richard Paul

Great Teachers.

Inspirational teaching and learning. We believe that school is far more than teaching children how to pass an exam.

All our teachers are specialists in their subjects and want to share their passion and love of their subject with the students.

Students must learn to become independent and resilient learners in order to succeed in today's competitive society and these core skills will be developed in lessons on a daily basis. Our curriculum is broad, and not just narrowly focused on the core subjects. Sports, art and music all play a central role in our curriculum, as we understand what a crucial role these subjects play in a child's development.

Great Environment. The highest of expectations for behavior. At Greatfields there is an environment in which all students feel happy and safe. We actively promote positive relationships between the students themselves and between the students and teachers.

We want to develop young men and women who will make a positive contribution to the school and the wider community. School is not just about academic learning but is also about teaching children what it means to be a member of society.

Great Future. A culture of aspiration for all our students. At Greatfields our fundamental mission is to prepare students for their chosen career.

We share our parents' and students' ambitions and we want to make them a reality. We have strong links with local universities and businesses in order to enable our students to gain direct experience of a wide variety of careers and university courses. By meeting professionals and university students and having the opportunity to visit them at their places of work and study we hope to inspire our students to follow in their footsteps.

We hope you're as excited as we are about what is happening at Greatfields and that you would like to join us. If you would like to find out more please visit our website greatfieldsschool.com
